Hi Dan,
Can you refresh my memory, are we preparing a new contract for LE services and then writing the amendment no 1 to add the Flock camera services? I will need to draft a new agreement in that case, which should be fine because I can use the original agreement from 2015, however, what do we want the initial term to be? I'm thinking we should try and coordinate dates on the contract and camera amendment for renewals/extensions?

I apologize, it's been a minute since I've reviewed this so trying to recall what the final decision was…

Thank you,

Sara

Jeff –

Per our conversation I have attached the three documents I have been working from.

The attached Word document, LE Services Agreement, is the now expired agreement SMPD had with the Housing Authority to provide extra patrols to their properties on an overtime basis. We would like to renew this agreement, but add in new services to cover their desire to fund LPRs on their properties.

The attached Word document, Housing Authority Agreement, is my attempt to capture what we would like to accomplish with the LPRs. Clearly deficient, and in need of some attorney attention.

The attached PDF is an example of a Flock Safety agreement. It might work well to have SMPD enter into contract with Flock, then attach and incorporate that contract into our agreement with the Housing Authority so all the nuances are captured.

Any assistance you could provide would be appreciated.

Thank you,

Dan
